SunStar®

Highly efficient oil pump

The highly efficient oil pump enables the stable sewing work at the high sewing speed of 8,000rpm.

Optimized needle bar mechanism for noise and vibration prevention

The optimized needle bar mechanism for 8,000rpm sewing has reduced noise and vibration.

Adjustable upper looper motion

The upper looper adjusting stopper helps realize various sewing outputs.

Differential feed ratio device

The fine differential feed ratio can be easily adjusted with the differential feed ratio device in line with a number of work conditions.

Easy stitch length adjustment

The stitch length can be easily adjusted by the pulley.
