

DIRECT DRIVE, 4-NEEDLE, FEED-OFF-THE-ARM TYPE, INTERLOCK STITCH SEWING MACHINE

SC7800 SERIES

Optimized energy efficiency

SUNSTAR's direct drive AC servo motor delivers power directly to the upper shaft, making energy loss to a minimum. Compared with the existing AC servo motor, the power consumption has been notably reduced.

Easy maintenance with hand pulley

The hand pulley attached to the direct drive motor makes the maintenance of the sewing machine easy.

Design without V-belt

Since it does not have a V-belt, the sewing machine can be easily installed. Upon high-speed operation, there is no concern about noise and vibration caused by the belt. The machine is free from the sewing material pollution caused by the V belt dusts, and the belt slip in case of long time use.

Broader work space

The optimized table design allows to have broader and wider space for users.

▶ Direct drive, 4-Needle, 6-thread, Feed-off-the-Arm type, interlock stitch sewing machine (4-needle flat-seamer)

▶ Main shaft motor(direct drive)

- Powerful sewing for the heavy materials with 500W AC servo motor.
- Noiseless and less vibration design due to adaptation of a direct drive motor. Enhanced productivity with accurate stop motion and fast & soft response.

SC7800 Series Specification

SC7800 Series Machine Specification Chart

Name	Direct drive, 4-Needle, Feed-off-the-Arm type, Interlock Stitch Sewing Machine	
Stitch type	ISO #607	
Use	Knit sleeve and shoulder seaming and stitching	
Sewing speed	Max. 4,200spm	
Stitch length	1.6~2.5mm	
Needle	GROZ-BECKERT UY 118GKS 4EA	
Needle distance	SC7800-□□M5: 5.2mm(13/64")	SC7800-□□M6: 6.0mm(15/64")
PF lift	6mm	
Differential feed ratio	0.7~1.5	
Lubrication	Automatic lubrication	
Trimmer	SC7800-01M□: One-Side Trimmer	SC7800-02M□: Both-Side Trimmer
